PROVISIONS OF COMPENSATION ACT RELATIVE TO CLASSIFICATIONS, RATES, PAYROLL REPORTS AND ASSESSMENTS.

2847.—Act applies to all inherently hazardous occupations as enumerated. This act is intended to apply to all inherently hazardous works and occupations within this state, and it is the intention to embrace all thereof in the four following sections, and the works and occupations enumerated in said sections are hereby declared to be hazardous, and any employer having any workmen engaged in any of the hazardous works or occupations herein listed shall be considered as an employer engaged in hazardous works and occupations as to all his employees.

2852. Hazardous occupations not enumerated or hereafter arising. If there be or arise any hazardous occupation or work other than hereinbefore enumerated, it shall come under this act and its terms, conditions and provisions as fully and completely as if hereinbefore enumerated.

2890. "Independent contractor" defined. "An independent contractor" is one who renders service in the course of an occupation, representing the will of his employer only as to the result of his work, and not as to the means by which it is accomplished.

2901. Employer liable when lets work to other than independent contractor. Where any employer procures any work to be done, wholly or in part for him, by a contractor other than an independent contractor, and the work so procured to be done is a part or process in the trade or business of such employer, then such employer shall be liable to pay all compensation under this act to the same extent as if the work were done without the intervention of such contractor. And the work so procured to be done shall not be construed to be "casual employment."

2902. Presumption when employer lets work by contract.

Where any employer procures work to be done as specified in the preceding section, such contractor and his employees shall be presumed to have elected to come under that plan of compensation adopted by the employer, unless they shall have otherwise elected, as provided herein.

2928. Liability in case of bankruptcy or failure is first lien. In case of bankruptcy, insolvency, liquidation, or the failure of an employer or insurer to meet any obligations imposed by this act, every liability which may be due under this act shall constitute a first lien upon any deposit made by such employer or insurer, and if such deposit shall not be sufficient to secure the payment of such liability in the manner and at the times provided for in this act, the deficiency shall be a lien upon all the property of such employer or insurer within this state, and shall be prorated with other lienable claims, and shall have preference over the claim of any creditor or creditors of such employer or insurer except the claims of other lienors.

2930. Misrepresenting pay-roll. Any employer who shall misrepresent to the board the amount of a pay-roll upon which the premiums or assessments under compensation plan number three are to be levied, or upon which fees for factory inspection, subsequent inspection, or reinspection, as elsewhere provided in this act, are based, shall be liable to the state in ten times the amount of difference between the amount paid and the amount which should have been paid. Such liability may be recovered in a civil action brought in the name of the state. All sums collected under this section shall be paid into the fund to which the original payments were, or should have been credited.

2946. Books, records and pay-rolls to be open to inspection.

The books, records, and pay-rolls of the employer, pertinent to the administration of this act, shall always be open to inspection by the board or any duly authorized employee thereof, for the purpose of ascertaining the correctness of the pay-roll, the number of men employed, and such other information as may be necessary for the board and its management under this

act. Refusal on the part of the employer to submit said books, records, and pay-rolls for such inspection shall subject the offending employer to a penalty of one hundred dollars for each offense, to be collected by civil action in the name of the state, and paid into the industrial administration fund.

2991. Computation of assessments. If a single establishment or work comprises several occupations listed in the preceding section in different classifications, the assessments shall be computed according to the pay-roll of each occupation if clearly separable; otherwise an average rate of assessment shall be charged for the entire establishment, taking into consideration the number of employees and the relative hazards, provided that in no case shall any assessment levied under the provisions of this act be for a less amount than two and one-half dollars.

2996. In case of default, rates to be advanced twenty-five per cent. Any employer who is in default in the observance of any order of the board, issued pursuant to the provisions of sections 2990 to 2995, inclusive, shall, in addition to any other penalty provided by this act, be charged an advance of twenty-five per centum over the established rate, and such advanced rate shall continue and be in force until such employer shall have ceased to be in such default.

3002. Collection in case of default by employer. If any employer shall default in any payment to the Industrial Accident fund, the sum due may be collected by an action at law in the name of the State and such right of action shall be cumulative. The Industrial Accident Board is hereby authorized, in its discretion, to cancel an employer's right to operate under plan three (3) of the Workmen's Compensation Act for failure to pay the premiums due the Industrial Accident Fund; provided, that when the Industrial Accident Board makes an order cancelling an employer's right for failure to pay premiums to the Industrial Accident Fund it shall be the duty of the Industrial Accident Board to make such order at least sixty (60) days before the cancellation becomes effective and to send a formal notice to the sheriff or sheriffs of the county or counties where the employer is operating, and it shall be the duty of the said sheriff or sheriffs to post a notice in at least three conspicuous places where the workmen can readily see said notices,

to the effect that the Industrial Accident Board has cancelled the right of the said employer to operate under the act, and said notice shall give the date of the effectiveness of said order. After said cancellation date the said employer shall have the same status as an employer who is not enrolled under the Workmen's Compensation Act.

3003. Injury happening while employer is in default. For any injury happening to any of his workmen during default in any payment to the industrial accident fund, the defaulting employer as to such injury shall be considered as having elected not to come under the provisions of the act, except that he shall be and remain liable to pay to the industrial accident fund the amount of such default, together with the penalty prescribed by section 2996.

3004. Assignment of cause of action to state. The person entitled to sue under the provisions of the preceding section shall have the option of proceeding by suit or taking under this act. If such person take under this act, the cause of action against the employer shall be assigned to the state for the benefit of the industrial accident fund. If such person shall elect to proceeding against the defaulting employer, such election shall constitute a waiver of any right to compensation under the provisions of this act.

3009. What included in computing compensation in hazardous employment. In computing the pay-roll, the entire compensation received by every workman employed in the hazardous occupations enumerated in this act, shall be included, whether it be in the form of salary, wage, piece-work, overtime, or any allowance in the way of profit-sharing premiums, or otherwise, and whether payable in money, board, or otherwise.

BOARD RULES. RELATIVE TO COVERAGE, ASSESSMENT AND COLLECTION

1.

Employers, other than public corporations or contractors for public corporations, who make application for compensation coverage shall make an initial deposit of the estimated premium on a three months payroll.

2.

Contractors for public corporations shall make an estimated deposit of one per cent of the face of contract, such deposit to be in cash, an acceptable surety bond, or acceptable securities properly endorsed to the board.

3.

No employer other than a public corporation will be accepted for compensation coverage until the proper initial deposit has been made and accepted by the board as hereinbefore provided.

4.

At the end of each second calendar month, the Bureau of Accountants will levy and bill to each employer, an assessment computed at the manual rates on assessable payrolls for the two preceding months. Such assessments will be levied and billed not later than fifteen days following the end of the second calendar month.

5.

In all cases where an employer has failed to return payrolls for the two calendar months upon which an assessment is to be levied, he will be billed for arbitrary assessment based on his probable payroll exposure and in no event less than two-thirds of the initial assessment required to bring him under the act.

6.

If assessment is not paid at the end of fifteen days, as soon thereafter as possible, employer will be mailed a final notice

giving him fifteen days more time in which to make payment and setting a date for the cancellation of his coverage in case he fails to make remittance.

7.

At the expiration of forty-five days from the end of each second calendar month, compensation coverage will be cancelled on each employer who is still delinquent in the payment of his last assessment and his account will be adjusted and billed on actual or estimated payrolls as may be necessary.

8.

At the time of cancellation and adjustment, the initial deposit will be transferred and credited on the employers' compensation assessment account. If the employer still has a credit balance, it will be remitted with the letter of cancellation. If the employer has a debit balance, twenty-five per cent penalty will be added and the account put in the hands of the Attorney General for collection.

9.

Employers who fail to furnish payrolls within ten days after second notice, will be immediately cancelled from the benefits of the act and assessment levied and billed up to date of cancellation, on estimated payrolls as hereinbefore provided.

10.

Compensation coverage of employers who terminate operation will be cancelled immediately upon notice of such termination and proper adjustment made.

11.

The minimum annual premium shall be \$2.50.

12.

All payrolls must be itemized.

CLASSIFICATIONS AND RATES.

If there be or arise any classification of occupation or industry not covered by this manual, it will be accepted for compensation coverage at seventy-five per cent (75%) of the rate given in the insurance company manual on compensation insurance for Montana, pending the fixing and publication of a Montana rate for such classification.

N. P. D.	Means not subject to a division of pay-roll with other classifications.
D. C. and H.	Means drivers, chauffeurs and helpers.
N. O. C.	Means not otherwise classified.
"a"	Shown in column for insurance company code number means that the insurance companies do not publish a rate, but will furnish such rate upon application to the Home Office.
